

# un9

## pop-up lounge

Based on a gridded metal frame with detachable, fully-upholstered cylindrical cushions, the Pop-Up Collection is expandable from a lounge chair to a sofa, shrinkable to a side chair or ottoman, or can be custom sized to fit specific spaces. By combining radical form with a systemized grid, this collection blends avant garde design with a production-ready system offering both comfort and expandability.

### details

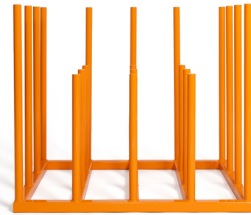

- powder coated steel frame
- upholstery
- available in range of fabrics
- COM (9 yards)
- made in Pennsylvania

### dimensions
